PU Coil Tube / PU Spiral Hose

Coil Tubing gives excellent abrasion resistance, kink resistance and tight bend radii, combined with good strength & flexibility. It is widely used in air tools at automation system, air compressed system.

★ Features:

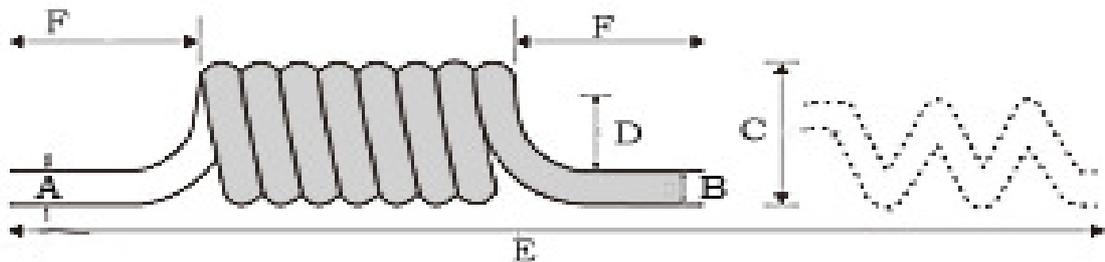

After stretching, coil tubes can return to its original status

Quick couplings are available

Ideal tubing for air tools system.

Made by 100% Thermoplastic (TPU), Long life service

Code	Sizes(mm)		W.P. bar	Total Length m (E)	Spiral O.D. mm(C)	Tails mm(F)
	OD	ID				
PUC0604	6	4	8	6, 9, 12, 15	38	0-500
PUC0805	8	5	10	6, 9, 12, 15	63	0-500
PUC1065	10	6.5	10	6, 9, 12, 15	78	0-500
PUC1208	12	8	8	6, 9, 12, 15	82	0-500
PUC1612	16	12	8	6, 9, 12, 15	130	0-500

★ High Elasticity is a way that pull A to B from Coil hole to increase the elasticity. But it will affect length of using and could not have F tails.

Note PU tubes:

*Please do not put tubes under humid environment or store them for a long period, otherwise, it becomes cracking due to hydrolysis effect.
