EVA Hose

(EVA)Flexible Ethyl Vinyl Acetate plastic tubing features high flexibility and impact strength, superior low temperature qualities, EVA tubing is also an excellent alternative to vinyl tubing in surgical, hospital and pharmaceutical applications. EVA tubing is manufactured to replace PU tubes in low pressure, oil, water and gas !

Code	Size(mm)		Tolerances	Standard Length(m)	Working Pressure @ 23°C	Burst Pressure @ 23°C	Min Bend Radii
	O.D	I.D					
EVA0425	4	2.5	±0.10	200	8	24	15
EVA0604	6	4	±0.10	200	8	27	18
EVA0805	8	5	±0.10	100	8	27	22
EVA0806	8	6	±0.10	100	6	18	22
EVA1065	10	6.5	±0.10	100	8	27	30
EVA1208	12	8	±0.15	100	8	27	42
EVA1410	14	10	±0.15	100	6	18	65
EVA1612	16	12	±0.15	50	6	18	78
EVA 3/8	9.5	6.5	±0.10	100	8	27	32
EVA 1/2	12.5	9.5	±0.15	100	8	24	45

★ Application & Feature:

- *Low Pressure Air,Water, Oil system
- *Replace PU tubes in connecting water.in shinny & flexible similar to PU tubing.
- *EVA Spiral/coil tubes are also available in our factory.
- *handling of Agriculture products, Anhydrous Ammonia and Liquid Fertilizers.
- *More competitive price than PU tube
